

Postdoctoral position in Lung Cancer Immunology and Immunotherapy

A postdoctoral position is immediately available in the laboratory of Dr. Luis Paz-Ares and Itziar Otano at the Institute of Research Hospital 12 de Octubre/CNIO, in Madrid.

We are seeking highly motivated junior postdoctoral scientist with a keen interest in experimental and translational immunology. Our lab is taking systems immunology and synthetic immunology approaches to improve the efficacy of immunotherapies. Candidates should have the ability to work well independently as well as part of a team and the ability to manage the day-to-day running of a research project.

Location: Institute of Research Hospital 12 de Octubre and Spanish National Cancer Research Center (CNIO) located in Madrid, Spain.

To apply: submit a complete CV that includes details of training, research experiences, publications, and presentations at conferences, to Itziar Otano (iotano@ext.cnio.es) or Raquel López (raloam.imas12@h12o.es)
